THE LAFOLLETTE NAME  
OAKLAND'S FINE IDEA  
ANGELS THAT WATCH US  
400 MILES AN HOURBy Arthur Brisbane  
(Copyright 1930 By King Features

THE NAME LA FOLLETTE remains a power in Wisconsin. Its voters have not forgotten the courage and the integrity of Robert La Follette, and apparently find in his sons the same characteristics.

What happens it would give the father to know that his son Robert La Follette occupies a seat in the United States Senate, and that another son, Phillip, has just been elected governor of Wisconsin.

WITH ONE SON in the senate and another governor of his state the old senator can feel that his family is well represented in American life. Perhaps he knows all about it; and if he doesn't, no matter. We live on, in our children. Enjoying an immortality that agnosticism can not take from us.

Chicago's attendance at night schools, has increased 62 per cent, attributed to lack of employment.

Wise is the man, out of work temporarily, who puts his brain to acquiring knowledge. He will not remain unemployed.

OAKLAND, ONE OF THE MOST progressive cities in progressive cities in progressive California, establishes, thanks to the University of California, the country's first "adult educational center." The adult, rather than the child, craves information, eagerly seeking to repair lack or neglect of opportunity in childhood.

NO MAN SHOULD FEEL that he is "too old to learn." Desire to learn proves of itself that you still can learn.

One of the greatest British scientists conquered Greek after he was 60.

On the opening day of the university for adults, students admitted included a banker, a day laborer, school teachers, two doctors, a dentist, a photographer, clerks, bookkeepers, insurance agents, a successful merchant and two truckdrivers.

Well might the ancient Chinese say: "He that knows not, and knows that he knows not, is wise. Encourage him."

ANGELS THAT WATCH US, and, perhaps, talk about us, must have been amused when they saw Henry Ford sleeping at Nancy, in a bed once occupied by the sultan of Morocco.

That bed could not well have held two individuals farther apart than the Sultan of Morocco and the Sultan of Detroit.

But, to the angels we may seem as much alike as ants seem to us.

IN A SECRET TEST, Captain Orlebar, squadron leader in the British air force, beat his own world's record for speed, made when he won the Schneider cup, 355 miles and a fraction an hour. He has recently several times exceeded 400 miles an hour, a speed that would bring him across the Atlantic in less than a day, across the Pacific by the daylight of one day.

CONGRESSMAN HAMILTON FISH, JR., able, earnest young man, head of the committee appointed to investigate the Reds, says investigation should cover the United States. He is right.

The United States should know about all important activities, in-

Home Budget Tangled Again  
With Milk Up, Gasoline Down

It is going to cost Salem people more to feed the baby and less to take a spin in the family car, that is for the present at least.

Milk distributors in Salem announced an increase of one cent

in the price of a quart of milk becoming effective today. Dealers state that the recent drought, which resulted in pasture shortage, is a contributing factor to the increase in milk prices. Milk is now quoted at a retail price of 13 cents a quart.

A gasoline price cut has been effective in some Ohio cities for several days and its effect was noted here this morning when most dealers announced motor gasoline at 19 cents a gallon and high test and Ethyl at 22 cents.

This price change is general in the state.

DETROIT POLICE  
RAID DISTILLERY

Large Plant Destroyed;  
Expert Operators In  
Charge, Belief

DETROIT, Sept. 18.—Police early today destroyed an illicit distillery, which they said had been doing a \$1,000,000 a month business for several months.

In a raid late last night they discovered and seized the largest alcohol plant found in Detroit since the 18th amendment went into effect.

Operators of the plant escaped by means of rope ladders from rear windows, while the police were battering down doors and partitions. The building, located near the center of the downtown business district at Woodward avenue and Grand boulevard, formerly was used by the fire department, but was abandoned several years ago.

The big distillery was equipped with a telephone system and a battery of elevators. There was evidence that it was operated by experts.

Holes in the upper floors through which fire fighters formerly passed had been converted into elevator shafts.

Eighty thousand gallons of grain mash was found in vats and 20,000 gallons of grain alcohol was ready for shipment. There was a crating department and evidence that five gallon tins of alcohol were shipped in railroad lots from a railroad siding near the building.

Storage rooms were crammed to the ceiling with materials for making alcohol, including 100,000 pounds of raw sugar and 2,000 gallons of molasses.

Episcopalians May

(By Associated Press)  
SAN DIEGO, CAL., Sept. 18.—Ruth Alexander, local aviatrix, was killed when her airplane crashed at Loma Portal, within the city limits here early today shortly after she had taken off for a proposed one-stop flight to Newark, N. J.

Miss Alexander, in a low winged Bessing monoplane, "The Agua Caliente" took off at 3:28 a. m. P. S. T., she planned to make one stop at Wichita, Kas.

The cause of the crash was not immediately learned. The take-off was in a low hanging fog, but it was believed she had cleared this when her plane rose to an altitude of about 500 feet.

The scene of the crash was about three miles from Lindbergh field, where Miss Alexander took off. An explosion of gasoline was believed to have caused the crash.

Miss Alexander recently flew from the Canadian to the Mexican border along the Pacific seaboard, making the first non-stop flight over that route by a woman. Her time was 16 hours. She also held the women's altitude record for planes of less than 100 horsepower.

National Aeronautic association sanction for the trans-continental flight was received yesterday by William Van Dusen, its local representative.

Her Bessing monoplane, with 115-horsepower motor, weighed only 780 pounds. Her own weight combined with that of the 117 gallons of fuel exceeded the weight of the plane.

The flier planned to stop overnight at Wichita, taking off for New York Friday morning.

Auto, \$10 Cash Missing

LISBON, Sept. 18.—A plot to rob the Hepner grocery store here early this morning was frustrated by police after a resident living near the store had become alarmed at sounds of forcing entrance to the building and a motor running in the street.

Police responded and the burglars made an escape but left the automobile they were using parked by the store. The car had been stolen earlier from the residence garage of Louis Hart.

The burglars had taken groceries and sacked them ready to leave when they became alarmed. Ten dollars in cash is missing.

It is believed that the men escaped in the car of Clayton Davis which was stolen from his garage this morning.

NANCY, FRANCE, Sept. 18.—Henry Ford, after a motor tour to the Verdun battlefield and passing the night at Nancy, continued toward Germany by automobile today.

With boy-like exuberance, Ford willingly posed for photographers and talked with reporters, repeating his intention of developing a French factory at Anieres, near Paris, and of opening factories at other European points where business prospects warrant.

Ford said his visit to Verdun impressed him deeply with the futility and cruelty of wars.

Dry Generals Quiet But  
Pledge Action To Aid  
Prohibition Cause

CURRAN CLAIMING  
GAIN IN SENATE

Prohibition Adherents To  
Stand Steadfastly By  
Constitution

(By Associated Press)  
WASHINGTON, Sept. 18.—Completion last Tuesday of the year's primary elections drew expressions of distinct pleasure at the results from wet leaders while the dry generals refrained from direct comment but took occasion to pledge themselves to resist every effort towards repeal.

The dry declaration was adopted yesterday on the 143rd anniversary of the signing of the constitution. It was issued by the national conference of organizations supporting the Eighteenth amendment.

## Currant Makes Statement

The wet view was voiced by Henry H. Curran, president of the Association Against the Prohibition Amendment, who noted that "the tide is still coming in."

Curran claimed wet gains in the house of representatives of 37 seats with "more to come on election day."

He asserted the dries had not won a single seat in the primaries. The enthusiasm expressed at this result was tempered with the observation that "we still have a long way to go before congress catches up with the people on this question but we are on our way and we cannot be stopped."

The pledge of the prohibitionists said: "Believing in the success of national prohibition, so completely proved by the blessings it has brought to the American people, that our most bitter opponents dare not advocate the restoration of the saloon, we declare our purpose to resist to the last every effort to repeal the amendment by which the liquor traffic is outlawed—the sure bulwark that blocks the way to the return of the saloon."

"Protesting against nullification of the constitution by repeal of the legislation, state and national, which supports the amendment, and denouncing law violation as a means of restoring the drink traffic, we call upon the patriotic citizens to join with us in our refusal to surrender to those enemies of the constitution, who by these means, seek its destruction."

In addition to straight-out wet victories he counted in the primaries of Tuesday, Curran said the narrow margin by which the dry William M. Butler defeated a wet opponent for the Republican senatorial nomination in Massachusetts convinced "everybody but Butler" that the former chairman of the Republican national committee would be defeated in the November election by his wet Democratic opponent, Marcus A. Coolidge.

OCEAN AVIATOR  
UNDER ARREST

Bert Acosta Again In Toils Of  
Law When He Violates His  
License Suspension

BRIDGEPORT, CONN., Sept. 18.—Bert Acosta, chief pilot for Admiral Richard E. Byrd on his transatlantic flight in 1927 was under arrest today for flying a plane in Connecticut while his license was under suspension.

Acosta had taken off from Roosevelt field N. Y., late yesterday afternoon in a borrowed plane. He landed late last night in a meadow on the farm of David Evans at Wilton. He told Evans engine trouble had made the landing necessary, but Evans telephoned the state police barracks in Westport and Acosta was arrested.

His license to fly in this state was suspended for low flying over Naugatuck in 1928. In January, 1929, he was suspended for low flying and stunting over the Long Island fields and fined \$500. Inspectors of the department of commerce said so far as they knew the fine has not been paid and that his license was still suspended.

Youth Arrested As  
Would-Be Assassin

HOLLYWOOD, CAL., Sept. 18.—Richard McEneaney, 19, of Brooklyn, N. Y., was under arrest today, charged by police with having plotted to put Ben Lyon, film star and husband of Bebe Daniels, on the "spot" for an imagined grievance.

When arrested in front of the studio where Lyon was at work detectives found a loaded revolver in the youth's pocket. Later, under arrest, McEneaney said he only wanted to get the actor to aid him in procuring work.

Ibra C. Blackwood has won the Democratic nomination for governor of South Carolina by the narrow margin of 693 votes. He defeated Olin D. Johnston, former state legislator in the second South Carolina Democratic primary.

NIGHT FAIR AT  
LISBON DRAWS  
LARGE CROWD

12,000 To 14,000 Admitted  
Through Gates On  
Second Day

LISBON, Sept. 18.—The second day of the 81st annual county fair showed a larger gate than last year, it was announced last night. While the crowd during the day was not as large as in former years the night attendance which began to mount at 5 o'clock swelled records of former years. Between 12,000 and 14,000 people going through the gate during the two sessions.

It was the first time that a rodeo had ever been featured during the county fair. The stunts of the cowboys and cowgirls thrilled the crowd both during the afternoon and night. Two bucking horses broke through the corral Wednesday afternoon, and one of the cowboys was severely injured by being knocked down when one of these horses kicked a gate open.

## Judge Show Horses

Show horses were judged in front of the grand stand at 10 o'clock this morning, there being 75 entries in this class.

The fair is more interesting this year than for a decade.

Every available square foot of display space is occupied. There are more amusements than has been the usual rule, and the steers, buffalo and 87 horses used in the rodeo are attracting the attention of the crowd. This stock is quartered near the cattle barn.

Rodeo stunts will be featured between race heats this afternoon, and the fair will continue throughout Friday and Friday night.

The fair grounds have been brilliantly illuminated, flood lights having been placed at the top of the grand stand and directed on the race track. Other parts of the grounds have also been lighted.

PAID PROTECTION

Penitentiary Inmate On  
Stand As Witness For  
Prosecution

(By Associated Press)  
CLEVELAND, Sept. 18.—An account of alleged payments of protection money to former Canton city officials by operators of bootlegging, gambling and vice in the "jungle" there, was related in federal court here today as E. E. Curtis, former Canton safety director, was placed on trial, and Arthur Drunkenbrod, former Canton councilman, pleaded guilty to charges of conspiracy to violate the prohibition law.

Judge West announced he would defer sentence upon Drunkenbrod until after Curtis' trial is completed. The delay was at the request of Marc Wolpaw, assistant district attorney. The jury consisted of ten men and two women.

Convict Takes Stand  
Earl Stroup of Canton, first witness for the government, named Curtis as one of the former city officials who are alleged to have received "protection money" from operators of speakeasies in Canton. Stroup, said to be a former bootlegger, was brought to Cleveland from the Ohio penitentiary at Columbus, where Curtis has served time on a bribery sentence.

Stroup testified that he talked to Curtis on July 1 last year about opening up a bootleg joint, and was told to go ahead and open it.

Stroup said he offered and that that protection would be arranged.

Stroup said he offered Drunkenbrod a fourth of the profits, but that the former Canton councilman held out for 4 per cent. Stroup said that Drunkenbrod, at that time, claimed to represent Curtis.

Demands Percentage  
Drukenbrod's demands for a higher percentage were accepted, the witness testified, and payments of \$200 a week began immediately. The payments lasted for three months, until Stroup was told to close up temporarily "until a row."

Stroup quit making such a row," and said he understood that E. E. Curtis former safety director and brother of C. C. Curtis, former Canton mayor, was getting the money. This was in 1928.

Stroup testified he had talked with the former safety director in October of that year about "getting together."

The following December he saw E. E. Curtis again and asked if he couldn't buy the Mecca hotel in Canton into which Stroup wanted to move a resort for vice. He also asked about establishing a speakeasy across the street.

"This was agreed upon, the witness said, the arrangement being to pay E. E. Curtis \$50 a week for a protecting the speakeasy, and \$150 a week for protecting the hotel.

BEVERLY HILLS, CAL. Sept. 18.—At Las Vegas, Nev., today Secretary Wilbur is dedicating the Boulder Dam. I had been asked to go there in case Arizona senators should start a filibuster, and keep talking and talking and prevent the dedication.

## REMOTE CALAMITIES

Reports from the ice-breaker Sedoff, returning from an expedition in the Arctic regions, say that the spot marked on maps as Lonesome Island is now nothing more than an expanse of ocean.

No trace of the island, which was only a stopping place for explorers and a haven for Arctic birds, can be seen, and the crew of the Sedoff surmised that it must have sunk into the ocean.

While it is possible that the island may have been charted incorrectly and lies a few miles away from the position indicated on official maps, if it actually has sunk it will not be a new phenomenon.

In January, 1925, the island of Port Alexander off the west coast of Africa disappeared into the ocean leaving boats anchored in the harbor floating in the open sea.

Witnesses said the island seemed to have been engulfed by a huge, slow-moving tidal wave that undermined the land. In 1883, the island of Anak Krakatau in the Malay Archipelago disappeared in a similar fashion, following a violent volcanic explosion that pulverized two-thirds of the island the rest receded slowly into the ocean frequently, no doubt, in remote parts of the world, recently, seismologists were alarmed when their instruments recorded one of the most terrific earthquakes ever noted.

Computations revealed, however, that the center of the quake was in central Asia in a region inhabited only by a few barbaric tribes. As long as such cataclysms take place near the top or bottom of the world or in some remote and uninhabited region there is slight reason for concern. The continents and most of the thickly populated islands seem to be resting on sturdy foundations and, save for an occasional earthquake, comfort themselves admirably.

Perhaps such a supposedly mythological place as the lost continent of Atlantis may have existed after all.

## SAFETY ON THE HIGHWAYS

A long line of automobiles of all makes and in all stages of wear extended away from Philadelphia's free inspection station a few days ago.

In each was a driver awaiting his turn to demonstrate that his car could pass that required state inspection. Registration, examination of headlights, horns, windshield wipers, rear-vision mirrors and tests for brake thrust were the steps in the procedure.

Down the line came a rumor. As it was passed from mouth to mouth, there were many chuckles. Some misgivings.

The mayor's car had failed to pass the test. Big, shiny, new and driven by a professional driver it had to be sent to a garage to have the lights and brakes adjusted. It was likewise with the car of the president of council; many indeed were the palpitating hearts after that as cars drew closer to the examination enclosure, and with good reason too.

A scant 30 per cent of the 475 cars examined during the day were given a clean bill of health.

Some of Philadelphia's automobiles were adorned with yellow tickets after the tests. That meant they were dangerously obsolete and should be refused registration. In 1929, more than 3,000 cars were removed from the road by this method. This year, it is anticipated, more owners will junk their cars voluntarily.

It's an interesting thought—the possibility that some day all cars and all drivers may have to prove their ability to operate safely on the highways. More important of the two, of course, is the driver since it is more his fault than the car's.

bility for maintaining the car rests. If he is interested in preserving his right to operate a vehicle there is every likelihood that the vehicle will be maintained in good condition.

## THE NEW NEIGHBORS

Before the echoes of the revolt in Argentina had died away there were reports that official Washington viewed the affair more as a blessing than an evil.

The deposed president, Hipolito Irigoyen, had long been hostile to policies of the United States, whereas indicated a policy of friendliness and cooperation. The deduction was that speedy recognition of his government would pave the way for a continuation of that policy. It appears now that recognition will be made within a few days.

It is the traditional policy of the United States to recognize governments established by revolution if the revolution expresses the popular will and if the government manifest willingness and ability to fulfill international obligations. It is on this latter grounds that recognition has been denied the Russian Soviet, although that government's persistent propagandizing is another important consideration.

In a manner of speaking, it is a policy which has its counterpart in every circle of society that establishes certain qualifications for inclusion within the circle.

Employing that simile further, the United States will be anxious to greet the new family in the Argentine house before the Britishers can do so. They're both interested in the same things, you know, and one can't afford to let the other make advances first to families that might turn out to be important.

And the Uribururi are spoken of in high regard by some very nice people. So it is welcome to the neighborhood, Argentina.

## The Stars Say—

For Friday, September 19

While there is presage of some important developments or changes on this day, with a measure of success and progress, yet there is also sign of conditions to be rigorously manipulated toward this ultimate achievement. There may be many small annoyances, with misunderstandings and bickerings, and also the personal situation is not one to insure either harmony or gratification. With wise management there is promise of an excellent opening for a radical and happy change of affairs.

Those whose birthday it is stand at the threshold of a year offering much opportunity and advantageous change, with gain and promotion, but this implies overcoming many petty annoyances, delays and disappointments and adjuces care with speech and writings. Also employment may hurry, and purely personal engagements be beset with unhappiness and frustration. A child born on this day may be sure of many splendid qualifications for high adventure and success in life, but it may have many tests of these abilities through business anxieties and disappointments as well as personal grievances or sorrows.

## What Others Say

WASHINGTON AND WESTMINSTER

A member of the British house of commons, speaking at a public meeting outside the chamber, alleged that some of his fellow-members had appeared in parliament drunk and others had accepted bribes from money lenders. The committee of privileges summoned him before it, and later reported to the house that he had refused either to be more specific or to withdraw or apologize for his offensive remarks. A motion of censure was moved by the attorney general and carried 304 to 13.

Whereupon the speaker donned his three-cornered black hat and, with the solemnity of a judge pronouncing the death sentence, told the offending member that he had degraded the house of commons publicly and in the eyes of the world. Chancellor Snowden moved that the admonition be entered in the record. The object of it slunk from the chamber, with his bodyguard of counsellors.

We do not recall that Vice President Curtis donned a black or any other colored hat to admonish Senator Moses for comparing certain of his colleagues to the progeny of the wild ass. There was not even a committee investigation of his remark, which is rather surprising, when so few things get by today without being probed by the senate. The simile, which offended a large population west of the Mississippi, was accepted as a typical bit met by the senate's bad boy from the Merrimack. Comparing one's colleagues to the sons of a scriptural animal may not be so heinous an offense as alleging that they appear in their seats intoxicated, although ridicule sometimes cuts deeper than definite accusation; but would not Washington do well to borrow a leaf from Westminster, arm the president of the senate with a three-cornered hat and tell him to wear it upon occasion?—Detroit Free Press.

May Be Overlooked

Unless J. Hamilton Lewis does something to create suspicion he will risk being considered of not sufficient importance to be slouted.—Washington Star.

NEW YORK, Sept. 18.—Three young rich high-flying birds, spiraling about Broadway, had their wings clipped recently and abruptly. They now roost quietly around family fireplaces. The experiment was the last resort of distracted parents and so successful it became the theme of a Broadway play.

The lads were on a prolonged, bust, buying out speakeasies and night clubs and entertaining baby-talkers galore. Jag cures, Park avenue sanitariums and personal pleas were tested to no avail. In the extremity a hard-boiled ex-marine and football coach was given the "kill or cure" job.

One by one the stayouts were turned over to him carte-blanche to use his own methods. Always rough, he was at times brutal. He acted as their trainer and they had to obey or else. In the beginning all were belligerent, bled with booze and hangoverish resentment.

He met defiance with a clip to the jaw that often "snapped out the lights." That is after he had inveigled them to his isolated camp in the Adirondacks. There he baited, bullied and in emergencies beat them but had his code of meeting squareness more than half way.

They could not drink, smoke or leave the camp to "go girling." They were routed at dawn to tramp, chop trees, ride horseback and be abed by 8 p. m. It was the Muldoon idea applied individually instead of collectively and with a far greater gusto.

In each case regeneration required about three months. The first being one of terrific discipline with no quarter given. The second was a sort of thawing out lightened by a touch of the honor system. And at the end of the third trainer and "pupil" were invariably pals.

The boys returned toughened and whetted to robust vitality. There has been no backsliding. Not one has taken a single drink and only one has gone back to smoking. Each is shunning Broadway. In every case the trainer was not only given a salary but a grateful bonus.

New York savings banks have fortunes in dormant unclaimed accounts. Many law firms trace the heirs for a percentage. It all proves people once had money.

Among Broadway drifters drifting in these epic Autumn days are "Monday guys." They are circus trailers who "clean up" on Monday wash days in the briar patches. While a household was out front watching the parade they strip back yard clothes lines. Loot is sold to members of the circus or carried to the next town to pawn.

Smaller circuses or wagon shows, I am told, had verges in the old days who actually had the safe blowing privileges in towns they visited.

Private tutors paying personal visits are cutting into language school receipts. These instructors drop in at home or office for a half hour at \$2 a visit. They speak only the language taught the pupil. Many are able to make ten visits a day.

Some are unable to master French even after years of living in France. They are able to under-

stand but pronunciation is impossible. Arthur Moss has been living in Paris eight years, understands perfectly reads and writes the language, but cannot speak it. And he's no dumbbell.

A disconsolate but merry gent—that is life, heigh ho, a sob and a chuckle—writes me he has stopped drinking as result of experimenting with a raw egg in a glass of alcohol on his desk each morning. He watches the alcohol sizzle the egg. "You have no idea," he moans, "what alcohol can do to a good egg."

My work bench is in the modernistic manner, clear glass, and reveals my feet underneath. So far I am unable to keep from looking at them and here I am most of the time—stuck with a big pair of feet and no ideas.

"You have written," writes Tom K., Jasper, Ind., "about New York for 16 years. And what has it got you?"

It got me out of a Jasper, Ind., for one thing.

## Twenty Years Ago

(Issue of Sept. 18, 1910)

Salem schools opened Monday with a large enrollment, especially in the upper grades.

The Tritt China company's plant, employing about 225 skilled potters, has just been opened for operation at Niles.

Mrs. M. B. Saiter, of Alliance, formerly of Salem fell down a flight of stairs at her home and fractured several ribs.

Alliance—With a movement to pave the road between Sebring and Beloit it is expected Salem will become active and arrange for paving out from that city and that in the course of time Salem and Alliance will be connected with a paved road.

The boys of the Kaba were royally entertained at a three-course dinner Sunday evening at the home of James M. Bullard, East High street. The occasion was a farewell for Mr. Bullard, who will leave Monday for Oberlin college, where he will resume his duties.

The Cleveland Automobile club run was of interest to Salem people. Mr. and Mrs. L. H. Brush were in the party. They were accompanied by Mr. and Mrs. Charles Carr, this city, on their trip to Cleveland Saturday. Sunday they joined the Cleveland Club's run to Akron. There were 85 cars in the run.

Invitations are out for the wedding of Miss Josephine Gunn and Edward Kaley which will be an event of Wednesday morning at St. Paul's Catholic church.

Mr. and Mrs. Richard Goddard, who live north of Salem, are the parents of a daughter, born Sunday morning.

I. B. Taylor and sons, Clifford and Robert, have returned from a visit with relatives in Annadel, Tenn.

A party of local sportsmen including Norman Reich, Howard Alaback, Frank Buell, Harry Melinger, Clyde Bricker, Warren Evans and Ray Melinger, left Sunday for northern Michigan, where they will spend two weeks hunting and fishing.

By Dr. Royal S. Copeland

## Circulation Prevents Bed Sores

Too often it happens in our homes that some member of the family, as the result of illness or accident, is in bed for a long period of time. If the invalid is an old person, or if the illness is such that the patient is kept in one position, bed-sores are liable to develop.

The health of the skin depends on the free circulation of the blood. If it is to be firm and healthy, the skin must be plentifully supplied with blood at all times. Bed-sores are due to the death of the skin because of interference with the blood supply.

The usual place for a bed sore is the lower part of the back. It may involve any part which is pressed upon until it becomes tender and sore. The full length of the spine, the shoulder blades, hips, heels, elbows—all these parts must be carefully watched.

The first bad sign is a redness of the skin. This may be followed by swelling. Next we notice that the skin becomes soft and it may come away in a mass. Underneath the

damaged surface is found an open ulcer.

The ulcerated area spreads and deepens. It may extend right down to the bone.

All this is bad enough, but even more trouble may follow. The ulcerated spot sometimes becomes infected and filled with pus. If this happens, the system may be involved in general blood poisoning.

The important thing in caring for a bed ridden patient is to change the position frequently. If he is heavy, you must provide a number of small pillows. These are placed under the body so that pressure may be taken off any congested spot.

All prominent or bony parts of the back and sides should be bathed night and morning with soapy water and thoroughly dried. Follow this by rubbing with alcohol or any stimulating solution, to improve the circulation. After rubbing carefully, dust the parts well with starch, stearate of zinc, or talcum powder.

Cleanliness is of the greatest importance. Also it is necessary to keep the skin dry, because moisture softens the skin and helps to bring on trouble.

Prevention is the important thing. But if a sore actually forms, the doctor will treat it with the same care he would any other wound.

# ARMY DESIRES FASTER PLANES TO USE IN WAR

Long Distance, Endurance  
Flights Passed Up  
For New Work

WASHINGTON, Sept. 18.—Abandoning spectacular long distance and endurance airplane flights for the time being, the army air corps today is marshalling American inventive genius in the hope of developing the fastest and most powerful military planes ever built.

Already a half dozen leading American designers are working under special arrangements with the war department on new planes, some of which are described as almost revolutionary in type.

Pursuit planes with a normal speed of more than 220 miles an hour—almost twice the speed of the planes the Allies and Germany sent against each other in the World War—is one of the first goals.

Success already attained in increasing the speed of planes led F. Trubee Davison, assistant of war for air, to predict that the 200-mile an hour plane will be a reality in the near future.

Planes which will fight at altitudes far greater than those chosen in the World War for battle, faster and more powerful bombers, and probably four and five miles above ground, new types of attack planes also are sought.

Replacement of water by a chemical preparation for cooling is one of the most important immediate objectives of the plane builders and war department experts.

This development alone, it is declared, may vastly increase the speed of pursuit planes.

## REWARDS OUT IN CRIME CLEANUP

Extra Compensation Will Go To Officers Arresting Gang Leaders And Members

CHICAGO, Sept. 18.—Offers of extra compensation as rewards today spurred the police search for "Scarface" Al Capone and 24 other "public enemies" for whom vagrancy warrants have been issued. None has been taken in custody yet although the search has been in progress for 36 hours.

Detective squads, combing the city for racketeers, today had raided 10 so-called union headquarters, all of which are officered and dominated by well-known gangsters, some of whom are cited in the batch of vagrancy warrants issued Tuesday by Municipal Judge John M. Lyle.

In each case the authorities seized all books and records of the organizations and confiscated all movable property, including safes, strong boxes and locked desks. Some guns and ammunition were found.

# BROOKHART HAS BOARD CHARGE

Speculation In Wheat By  
Officials Gets Denial  
By Accused

WASHINGTON, Sept. 18.—Officials of the federal farm board today denied charges of Senator Brookhart, Republican, Iowa, that it has been cooperating with speculators in the grain market.

Returning from a tour of 13 states in which he spoke 300 times since congress adjourned, Brookhart struck at the farm board and promised the struggle for debenture or equalization fee plan of farm relief would be renewed in December.

"Now it is reported," Brookhart said, "that the board's subsidiaries are buying and selling their wheat on the market like any gambler."

He attributed the low price of wheat to "the same old bunch of gamblers, very ably assisted by the farm board."

A board spokesman challenged these statements and likewise ridiculed Brookhart's suggestion that President Hoover's war time program as food administrator be revived to fix farm prices at satisfactory levels.

"Hoover bid \$220 for all wheat offered with 20 days after congress gave him authority in 1917," Brookhart said. "Congress gave him \$150,000,000 and authorized him to borrow more and he held \$535,000,000 worth of wheat that year."

Eat anything else you feel like eating but moderately—lean meat—fish—chicken—vegetables and fruit are best—

Take one half teaspoonful of Kruschen Salts—in a glass of hot water every morning before breakfast—don't miss a morning—follow this advice. One woman lost 19 pounds in 4 weeks—another got rid of 47 pounds in 3 months—a New York woman lost 14 pounds with one bottle of Kruschen and is full of vim and pep so she writes—

J. H. Lease Drug Co. Three Stores or an drug store in the world you can get these magic salts—one 85 cent bottle lasts 4 weeks—Ask for Kruschen Salts—an enemy to Fat.

# When Will You Be 42?

Today You Say—And That Is That—But Tell Me Are You Very Fat

Well, if you are—it's probably your own fault. You don't know how to eat right and that's one reason.

If you would like to learn how to lose the fat you hate—and no one else likes—do as I did—Take this 30 day test—

Cut out candy cakes—pies and ice cream—cut down potatoes, rice—butter—cheese cream and sugar—

## Social Affairs

### HYGIENE PROGRAM

A program on "Ear, Nose and Eye Hygiene" interested members of the Farm Women's club at a meeting Wednesday afternoon at the home of Mrs. Louise Batzli, northwest of Salem.

These papers were given: "The Common Cold," Mrs. David Batzli; "Tuberculosis," Mrs. E. W. Kline; "Eyesight and Health," Mrs. John Seachrist; "Adenoids," Mrs. C. A. Briggs.

The hostess served a two-course lunch at the social period. The third Wednesday in October the members will meet with Mrs. David Batzli, northwest of Salem.

### BOLEN-HUTCHESON

Miss Verna Bolen of Ravenna, formerly of Salem, and Albert Hutcheson, of Freeport, Ill. were united in marriage Tuesday at Ravenna. Friends here have been advised.

The bride is a dancing teacher and widely known here. Mr. Hutcheson is manager of a store in Freeport and the young people will make their home there.

### PIONEER CLUB

The Pioneer club of the Presbyterian church will meet at 7 p. m. Friday at the church.

Marjorie Hostetter, Ruth Ruggie and Catherine Taylor are associate hostesses.

This is the initial meeting of the season. All members are asked to be present.

### SUPPER PARTY

Miss Judith Brooks, Highland avenue, entertained a few friends at a supper party Wednesday evening at her home.

The affair was a social courtesy to Mrs. A. K. Mansfield, South Lincoln avenue, who will return to Washington for the winter.

### MOOSE WOMEN

Plans were made for a card party on Oct. 1, at a meeting of Salem chapter No. 68, Women of the Mooseheart legion, Wednesday evening at the hall, East State street.

A social time was enjoyed after the meeting. The next session will be in one week.

### FRIENDSHIP CLASS

Members of the Friendship class of the First Friends church will hold a pork chop supper at 6 p. m. Friday, at the home of Mr. and Mrs. Walter Shallenberg, near the Depot road.

### BUSY BEES CLASS

The Busy Bees class of the First Friends church taught by Mrs. Edgar Derr will hold a meeting Saturday afternoon at the home of Mrs. Ward Allen northwest of Salem.

Mrs. F. H. Lutz and daughter, May, and son, Junior; Mrs. S. A. Lutz and James Kaley, of Salem, were in Cleveland Wednesday to visit Miss Catherine Kaley, who underwent an operation at St. Vincent's hospital there. Miss Kaley is getting along well.

Miss Esther Mohr, of East Palestine, who is attending the Salem Business college is staying at the home of Mr. and Mrs. J. C. Edgerton, East Fourth street. Mrs. Edgerton, who is recovering from an operation, is improving.

Mr. and Mrs. Herbert Davies, of Philadelphia, arrived here Thursday and are guests at the home of Keith Brian South Lincoln.

### BRIDGE CLUB HOLDS ROAST

Members of the Thursday afternoon bridge club held a wiener and marshmallow roast Wednesday evening east of Salem on the Damascus road.

Following the roast the members gathered at the home of Mr. and Mrs. Chester Mellinger, South Union street and spent the remainder of the evening in bridge. Four tables were in play with prizes being awarded to Mr. and Mrs. Lester Berger.

Lunch was served.

### PERPETUAL CHUMS

Mrs. Stella Fitzpatrick welcomed Perpetual Chums to her home, East Ninth street, Wednesday evening.

Three tables of five hundred entertained. Honors in the games went to Mrs. Ross Culberson and Mrs. Merle Halvstad. Lunch was a concluding pleasure.

In two weeks the members will meet with Mrs. D. J. Arthur, West Liberty street.

### MRS. WARNER HOSTESS

Mrs. Harry Roup and Mrs. Walter Egger were awarded prizes at five hundred at a meeting of club associates Wednesday afternoon at the home of Mrs. Scott Warner, North Ellsworth avenue. Two tables were in play in the games.

Plans were made to have a covered dish dinner in two weeks at the home of Mrs. Walter Egger, West Fifth street.

### SURPRISE MISS COULSON

Members of the Elizabeth Fry class of the First Friends church carried out a surprise for Miss Laura Coulson Wednesday evening at her home, North Lundy avenue, to celebrate her birthday anniversary.

Miss Coulson was showered with pretty gifts. The time was enjoyed informally and lunch was served.

### CANFIELD ROAD CLUB

Contests entertained at a meeting of the Canfield Road club Wednesday afternoon at the home of Mrs. A. L. Hively, Canfield road. Lunch was served by the hostess.

On Oct. 15 the members will meet with Mrs. Mason Hartman, at Columbusiana, with a covered dish dinner a feature.

### JOLLY 12 MEET

Mrs. Earl Diville, Mrs. David McCloskey and Mrs. John Burke won prizes in the progressive euchre games at a gathering of Jolly 12 club members Wednesday evening at the home of Mrs. Rebeck, Walnut street. The hostess served lunch. Meeting in two weeks the members will be guests of Mrs. Ida Alaback, North Rose avenue.

Mr. and Mrs. Harry Dodds and Mr. and Mrs. Norman Williams, of Cleveland, are guests of Mr. and Mrs. M. E. Treat, at the Salem Country club, west of the city.

Wallace Calladine, of Damascus, formerly of Salem, who is ill of pneumonia is reported to be some improved.

Hunter Carpenter, of Washington avenue, left last night for Blacksburg, Va., to enter Virginia Polytechnic institute.

W. F. Maxwell, of Canton, was a visitor here Thursday.

William Smith, of Indianapolis, formerly of Salem is visiting here.

### JOLLY GIRLS

One new member was added at a meeting of the Jolly Girls of Emmanuel Lutheran church Wednesday evening at the church.

Mrs. Ernest Rutzky, who has been in charge of the girls has resigned, and Miss Hermina Krauss will take her place.

Music and refreshments were pleasures. The next meeting will be on Oct. 15.

Mr. and Mrs. F. J. Eckstein went to Lisbon Thursday to attend the fair and will return Friday.

Harry Henderson, of Sebring, is a guest of Russell McArtor, South Lincoln avenue.

Frank Brian has returned from Kane, Pa.

### Veteran Youngstown Lawyer Dies At 78

YOUNGSTOWN, Sept. 18.—Benjamin F. Wirt, 78, president of the Federal Savings and Loan company, and for 57 years a member of the Mahoning county bar, died in a Youngstown hospital here today of infirmities of age.

He served in the Ohio senate from 1889 to 1893, was a past president of the Sons of the American Revolution, a member of the Book-fellows of Chicago and the Bibliophile of Boston, and past vice president of the National Historical society.

He was born in Middlesex, Pa.

### Maharajah Returns With Wife To Paris

PARIS, Sept. 18.—The Maharajah and Maharani of Indore, the latter formerly Nancy Ann Miller of Seattle, are returning to France to await the birth of a second child to the Maharani. They will arrive in Marseilles tomorrow from India, where they have lived since December in the Indore palace at Barwell.

cluding those of "Reds," and, if possible, some others, including national grafters, racketeers, bootleg organizations and wholesale criminals.

THE "RED" menace, which worries some of our best minds seems to be spreading.

In Australia, where government by labor unions has been somewhat overdone, and public finances are badly strained, there has been organized "a worker's defense army," called by others an organization of "Reds."

This "army" tells landlords that they must not evict the unemployed, whether they pay rent or not. What they mean was illustrated when a landlord's home in the suburbs was wrecked.

IN FRANCE, 15,000 jobs go begging, no men are idle. Workers are called in from Italy and other countries.

The French manage well, and have, per capita, the world's largest gold supply, almost double that of the United States. Their people all work, all save.

They are a logical people, and do not fear to go fearlessly where logic leads them.

## Storms Force Flier's Return

Lieut. Harold Bromley, veteran airman, with his sisters, Mrs. J. A. McKinnon and Miss Violet Bromley, Bromley and Harold Gatty returned to Japan after encountering storms off the Aleutian Islands on their flight attempt, Japan to Tacoma, Wash. They remained in the air 25 hours.

## DUMMY PISTOL USED IN BREAK

Prisoner Killed By Shot From Gun Of Deputy; Jailer Struck

PEORIA, ILL., Sept. 18.—Frank Cubit, 30, held here under indictment for numerous holdups, was shot and killed today by Deputy Sheriff Dick O'Brien while attempting to escape from the Peoria county jail.

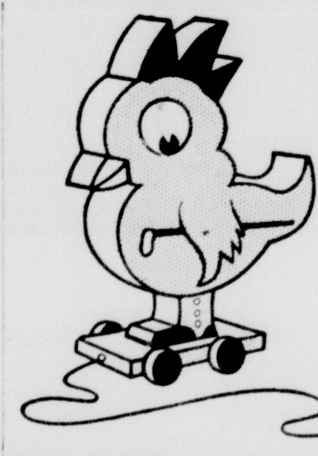

Cubit, formerly a prisoner at the Kansas state penitentiary, got out of his cell armed with a dummy gun which he had cut out of card board.

In the jail proper, he struck Charles Gierer, night jailer, over the head with a men handle. Gierer broke free, saving his keys, and fled into the elevator which he ran up and down while screaming for help.

Cubit, still carrying his "gun," ran down to the basement and terrorized the help there. Then he returned to the first floor, where O'Brien shot and killed him. Cubit apparently made his attempted break unassisted.

## Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

## NEW ANGLES TO CRATER TANGLE

Woman Asked for Suit In Promise Breach Before Justice Disappeared

NEW YORK, Sept. 18.—The New York World says it has been informed by Dr. Samuel Buchler, a lawyer, that the day before Supreme Court Justice Joseph P. Crater disappeared a woman asked him to start suit against the justice for \$100,000 for breach of promise.

The woman, who called herself Lorraine Fay, said she had letters from the justice, but failed to return the next day as she had promised.

The information from Buchler came after his attention had been called by the newspaper to a letter it had received from a woman in which he was mentioned in connection with the suit. The writer said she, Mrs. Crater and others knew the justice's whereabouts.

The day before Justice Crater disappeared he withdrew \$5,500 from the bank. The writer says he had to take this money out of the bank "to satisfy the whims of a 'scoundrel' who threatened scandals," she says she understands the threatened suit was disposed of by payment of \$5,000.

The letter was postmarked from Chicago. In addition to Mrs. Crater it mentions United States Senator Robert P. Wagner and Taylor Phillips as among those who could throw some light on the affair. Senator Wagner who was Crater's former law associate, has previously denied knowing anything about his disappearance. Taylor, a former partner of Wagner's, denied to the World that he knew where Crater was.

## LEETONIA

The Kiwanis club held its weekly meeting at the Presbyterian church with the Niles club as its guests. The ladies of the church served the dinner. The visitors had as their speaker Patrick O'Brien, of Warren, formerly of New York city. He impersonated a Socialist and when the clubs objected he laid aside his disguise, delivering an appropriate address relative to Constitutional Week. This week is observed by all Kiwanis clubs of the United States. The visitors furnished special music. Solos were given by Mrs. Arthur Campfield soprano; Mrs. Jones, alto; and Mr. Jones, baritone. Floyd Sharp, director of music in the Niles schools was the accompanist for the special music and club program. The attendance prize given by L. Z. Winder was awarded to Earl Nelson of the Niles club.

The Luther League of St. Paul's Lutheran church elected the following officers for the coming year at their meeting Tuesday evening: President, Miss Kathryn Cope; vice president, Miss Lena Jane Bellhart; secretary, Miss Margaret Redfoot; treasurer, Miss Frances Tittler.

PRESIDENT HOOVER, "J. R. KRAUS"

CLEVELAND PUBLIC AUDITORIUM

J. A. HOUSE C. E. SULLIVAN HARRIS CREECH

Illustrated here are President Hoover, the Cleveland Public Auditorium where all business sessions will be held, and prominent Clevelanders who are active in the convention preparations. Upper right, shows J. R. Kraus, vice-chairman of the board, Union Trust Co.; below, left to right, J. A. House, President of the Guardian Bank, C. E. Sullivan, chairman of the board of the Central United National Bank, and Harris Creech, President of the Cleveland Trust Co.

President Hoover will be the guest of Ohio for one day when he addresses the closing session of the 56th annual convention of the American Bankers' Association in Cleveland, October 2nd. The acceptance of the invitation marks the first time a president has ever addressed the convention while in office, and unusual significance is attached to the fact that the Chief Executive will talk to such an outstanding group of the nation's financial leaders.

More than 6,000 bankers will attend the convention from all parts of the country, and at least 500 are expected from Ohio. The four

## COLUMBIANA

The annual birthday party for the Daughters of the King was held Tuesday evening at the Lutheran church. The devotionals were in charge of Mrs. Isaiah Mowen and the roll call was a verse of the month of birth. This was also a rally meeting and an offering was received for the Tuberculosis sanitarium at San Antonio, Texas. The committee in charge of the gathering, which ended with the serving of a lunch, was Miss Ethel Esterly, Miss Mary Zimmerman, and Mesdames Emory Metz, R. C. Miller, Dan Miller, Olaf Todd, Guy Fisher and Arthur Lehnig.

An interesting event of Monday evening was a Ladies' Night gathering of the Columbiana Rotary club, this meeting being at Grace Reformed church, about 45 being in attendance. The speaker, Rotarian Harry Humbert, president of the Garrettville club, gave an interesting talk on the life of President Garfield. Mr. Humbert and his wife also favored with some music and readings. An excellent dinner was served by members of the Ladies' Aid society of the church.

Thirty-nine were in attendance at the Rupert reunion held Sunday at the home of Mr. and Mrs. H. H. Snyder near New Waterford. A picnic dinner was followed by a ball game and contests. The reunion will be held next year at the same place. The Columbiana people present included: Mr. and Mrs. John B. Siller and family; Mr. and Mrs. Robert Siller and son Dale; Mr. and Mrs. Carl Keller and family; Mr. and Mrs. Edgar Rapp and son Billy; Mr. and Mrs. B. J. Ferguson and family and Mrs. Alice Yarian.

Mr. and Mrs. Ivan Harold and family have moved to Canton where Mr. Harold has accepted a position as manager of an A. & P. store. About 30 members of Sunset Temple, Pythian Sisters gave Mrs. Harold a farewell surprise party last Friday evening at her home Middle street.

Guests Sunday at the home of Mr. and Mrs. Robert Wallace and family, south of town, were: Mr. Latta of Indiana; Mr. and Mrs. Valda Bell and son, Edgar, Signal; Mr. and Mrs. A. S. Ferrall and son Willard; Mr. and Mrs. Carl Souder and family, and Mr. and Mrs. W. W. Wallace.

Mrs. Christina Hisey, Mrs. Harvey Royer, Mrs. Enos Tyson and Mrs. Robert Chestnut and daughter Hisey of Leetonia, were at Canton Sunday to call on David Brewer who is in a serious condition as the result of a motor accident last week.

Sunday evening Mr. and Mrs. W. R. Simpson and family, Union street, entertained the following guests to dinner: Mr. and Mrs. John Hively, New Waterford; Mrs. Breece, Toledo; and Mr. and Mrs. Paul Hively and daughter, Marilyn, Youngstown.

Rev. C. R. McMeekin has gone to Mt. Vernon to attend the annual Methodist conference. There will be no preaching services at the local church next Sunday.

H. A. Keller, Mr. and Mrs. James Nolan, Mr. and Mrs. James Nolan and Mrs. Susan Oberholtzer motored to Cleveland Sunday, where Mrs.

# Art The Jeweler Observes First Anniversary Of Salem Store

## New Manner Of Doing Business Started In City; Year Successful

Art the Jeweler at 402 East State street is celebrating his first anniversary this week.

Art says he has reason to be glad that he located this up to date store in Salem just when he did because the year has been a most successful one in many ways. It has brought him a nice volume of trade. Then it has put over the idea in Salem of a guaranteed jewelry store and repair house.

Merchandise, watch or jewelry repair is guaranteed. It must be satisfactory to the customer, or the transaction cannot stand.

In watches, Art handles Elgin, Bulova, Benrus, Hamilton and Illinois. Then it has a really expert watch repairer, so that the watches are serviced as they should be. All this, too, is done under the guarantee.

Having established these two big facts—that his store fills a real

## WELDING MAKES BETTER PARTS

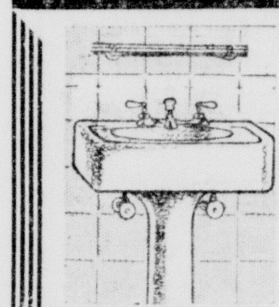

### Difficult Tasks Easy For Umstead Company In Salem

Whether it is a tank or a gear or a frame or any one of a hundred other things that give way at wrong time, if a good job of welding will cure the trouble, well informed people send it to Umstead Welding company, or else get one of his portable welding outfits on the job. Many a factory employee owes his pay envelope to Umstead for a hurry up job.

For Umstead likes to overcome difficulties and welcomes them with a smile. He likes to tackle those jobs the other fellows say cannot be done. Somehow, he finds out the difficulties. At that, makeshift work never appears to him. He does it right, or not at all. He frames that he welds holds together. It is there to stay. The gear that is stripped gets new teeth that last as long as the original.

To do these things Umstead has a perfectly equipped shop, and he employs a force of men that are experienced in the trade. If the job cannot be brought to his shop, he sends one of his portable machines to the job.

Men who have the responsibility for machinery on their hands, and men who want the best of work when they need it, should keep acquainted with Umstead.

## REMOVAL OF OLD FURNACES OFTEN AID TO OWNERS

### Warning Issued By City's Heating Engineer; Asks Care

Many house owners in Salem, in the opinion of A. W. Starbuck, of the local heating firm of Starbuck Bros., located on North Ellsworth avenue, would make money by tearing out their present heating plants and installing new ones.

A. W. Starbuck says: "The great advance in heating methods in the last few years is not generally understood among house owners, or there would be a renovation of many heating plants in order to take care of deficiencies that have been overcome. Such a renewal in hundreds of cases would be a true economy, for more can be had from a ton of coal or a thousand feet of gas now than was possible only a few years ago and there is little comparison of the comfort. Warm air heating has made such strides that a properly installed warm air heating plant is today the last word in heating efficiency, lower in first cost and operation than other methods, yet providing a uniform temperature throughout the house, a revivification of the air supply, and the right degree of humidity, so that living conditions in the home properly heated with warm air are as near perfect as could be desired."

What with automatic regulation of the heat by which the home is kept perfectly uniform in temperature and that without attention on the part of the home keeper, air conditioning, by which all the air used passes through filters that prevent the deposit of dirt and grime on walls and carpets, and which also regulates the amount of moisture in the home, and the improved methods of combustion, now utilizing a larger percentage of the heat in the fuel than ever before, the modern warm air heating plant approaches the ideal conditions, and many home owners would find that a competent heating man would give them greatly increased comfort, more beautiful conditions and less fuel bills at a comparatively small initial expense."

### Cold Forces Care To Car's Battery

Many people who have had disagreeable experiences with the battery in the car have determined that there will be a new one in its place before cold weather rolls around again. That may of course be necessary. It may also be possible that a good battery man can make a few repairs to the old battery and fix you up fine. When you come to think of it, your battery gets about as little attention as any part of your car, being usually left to shift for itself with a drink of water once in awhile. If it is worth saving, Beall Battery and Electric Service can do the job. If it should be as you suspect, just naturally worn out why wait till winter to replace it with a good one?

### Lives Endangered By Blast In Cleveland

CLEVELAND, Sept. 18.—The lives of eight persons were imperiled here today when a terrific explosion demolished a one-story drygoods store building, partly destroyed an adjoining structure and damaged two dwellings.

The blast, the force of which was felt for nearly two miles around, was believed by firemen to have been caused by gas. Damages by the explosion were estimated at \$25,000.

## Business College Trains Students For Life's Work

One reads a great deal about the competition of modern business life. People think sometimes that the opportunities for the rising generation are not all they were a few years ago—that youngsters will not have the chances they had. Yet at the same time, business is calling more and more for trained workers, men and women who are able to take responsibilities and discharge them right. For such the rewards of modern business life are even greater than were the rewards a few years ago.

But it is too much to expect a young person, without business training of any kind, to step into these places and get along with any speed. Business demands trained people. The obvious thing is to give the young folks a good business training before they get into the business world, or at least to prepare them for the higher places while they are occupying the minor niches.

Business education is in a field by itself. It requires a different atmosphere from general educational efforts. A business school trains pupils to do certain things, yes. But it is more in the intangible atmosphere of business that they get the principles that mean so much, and a business school must give this atmosphere as well as it does more tangible training. In other words, business schools, to attain the largest measure of success, must be strictly business.

That this kind of education, this wide preparation for the greater things in life, can be obtained in this city is well shown by the success of the Salem Business college located at 301 East State street, a school that has for years amply proven that it really trains for business. The many pupils of this school who are holding advanced places in business and the almost universal success of those who complete its courses show conclusively that the work of the school is what it should be, and that the greatest assurance of success any young man or woman in this territory may have is the training this school is ready to give.

## VARIOUS WORK DONE BY MONK AUTO STATION

### Square Treatment Key Of Garage Operated On W. State Street

Auto repair is one of those services that are not easily estimated in advance. Sometimes what appears a very little thing may be found to be rather serious when the trouble is laid bare. Consequently the motoring public is rather at the mercy of the garage mechanic. If the repair is necessary and the work can be done at once, the owner wants it, but there have been instances where very trivial repairs were made the basis for a big bill. That is one of the many reasons why drivers should know something about the garage to which they entrust their repairs, and should select one that can be depended upon not only for skill but also for square treatment.

Maybe because of this square treatment, among other reasons, the repair business of Monk's garage at West State street has grown to such large proportions. Patrons who know what has been done for them spread the word to their friends. These are so well treated that they become boosters also. Here you will find proper equipment and the spirit of service. You will be able to get your work done without the time wasting efforts of fellows who do not know how, a feature saving many motorists many a dollar. You will find your work undertaken with system, prosecuted with dispatch and billed with reason—a pretty good combination to tie up.

### ABOUT TOWN

**City Hospital Notes**  
Mary Menning had her tonsils removed at the Salem City hospital. Ruth Marie Fantulle, of Lisbon, patient at the hospital was discharged today.

**Friends Bible School**  
Officers and teachers of the First Friends Bible school will hold an important meeting tonight at the church. At this time the annual promotions will be made.

**Recent Births**  
Mr. and Mrs. C. D. Callahan of West Fifth street are the parents of a son. He has been named Gerald Ross.

### State To End Case In Galion Killing

BUCYRUS, Sept. 18.—Only one state witness remained to be heard today before the defense began efforts to save Kenneth McCarthy, of Mansfield, from death in the electric chair for the slaying of Ralph Wilcox, young Galion filling station operator.

The final state witness was Dr. P. A. Murr of Galion, who attended Wilcox before he died from bullet wounds suffered in resisting three holdup men last June 27.

The defense indicated McCarthy would not be called to testify in his own defense.

Mrs. Geraldine Wilcox, 19-year-old widow of the slain man, yesterday identified McCarthy as one of the three robbers. She was unable to say whether McCarthy fired the fatal shots.

**Son's Birth Brings Celebration, Jail**  
CLARKSBURG, W. VA., Sept. 18.—Julius Harvich was anxious to herald the birth of his son with all the gusto of royalty.

He didn't have any cannon but he did have dynamite. So the neighbors learned as the blasts shook their houses and rattled their dishes off the shelves.

Harvich today is shouting between iron bars to the turnkey at the jail about what a fine boy he has at his house.

### Bankers Elect

LIMA, Sept. 18.—Fred C. Spittle, of Bellefontaine, was elected chairman at the closing session of the 23rd annual meeting of group two of the Ohio Bankers association here yesterday. Hugh L. Wilson of Sidney was elected vice chairman and Harley J. Past of Lima was elected secretary and treasurer.

If you do a favor to a bad man, the favor is lost; if you do ill to a good man, it lasts for a length of time.—Plautus.

### Today's Pattern

The lingerie touch of collar and cuffs is extremely important this season, and particularly delightful on a frock of simple lines and details. The model presented today has exceptionally smart side skirt flares that are joined in front to a panel creating slender and length-giving lines.

Pattern 2018 makes up charmingly in flat or canton crepe, dull satin, maroon, chiffon velvet or georgette. A solid color or a print may be selected with equally good results. Seasonal colors are black, navy and the wine tones. The flattering collar may be made of cranday, georgette, pique, batiste or lace in ecru, dull rose or white.

May be obtained only in sizes 16, 18, 20, 36, 38 and 40. Size 16 requires 4 yards of 40-inch material.

## THE DAY In Sports

FOOTBALL BROADCASTS  
DANGER OF STALENESS

TWO COLLEGIATE football games will be played on the Saturday afternoon, the opening day of the 1930 grid season. The Ohio State-Mount Union fracas, billed as an easy victory for the Scarlet and Gray, will come to Salem listeners via WLW from Cincinnati which has completed arrangements for broadcasting of all Ohio State games. The Army-Penn State encounter at West Point will be sent to listeners here by the Columbia network. Ted Husing officiating at the mike.

The all-important National League games between the Boston Braves and Chicago Cubs are being broadcast each afternoon at 2:15 by WMAQ and WBBM, Chicago, while WCCO, Minneapolis, sends to us the games between Minneapolis and Milwaukee daily at 4:15 this week.

All of the year's big grid contests will be available here by radio, fans being benefited by the Friday night arrangement of games for Salem High in such a manner that they will be able to spend Saturdays listening in to two and three games. Each of the big radio chains are making plans for a broadcast of the world series between Philadelphia and National League representative which opens at Philly.

THOSE ASPIRING young men of Salem High school who dig not for silver or gold but for the glory and fame of representing their school in the big game with Canton McKinley Saturday afternoon have their final scrimmage session of the week this afternoon. Tomorrow Coach Stone will give them signal, passing and kicking practice and announce what lads will make the trip for the Stark County invasion.

Just about now comes the time when sleep is hard for the hardy griders. The mental strain is especially stiff and the night prior to the first contest of the season and it is a tribute to the lads themselves that they take their football so serious. Care should be taken not to think too much football, however. Nothing hurts a player so much as staleness.

## St. Louis Now Heads National Race; New League Records Set

(By Associated Press)  
There isn't very much to Andy High as ball players go—only 54½ feet of him—but today he can wear the biggest hero's garland St. Louis has to offer. Andy does not even rate as a regular on the Cardinals this season, yet he is the one who has given them two successive triumphs over their rival Brooklyn Robins and a clear hold on first place.

On Tuesday Andy went into the game as pinch hitter in the tenth inning and cracked out a double that led to the game's only run and a virtual tie with the Robins. Yesterday High hit a double in the ninth and brought a 5 to 3 triumph for the Cards and a full game margin. He hit with the score tied and two men on base.

The four leading clubs today stand as follows:

Club	W.	L.	Pct.	Games Behind
St. Louis	84	60	.583	---
Brooklyn	84	62	.575	1
Chicago	83	62	.572	1½
New York	79	66	.545	5½

Sylvester Johnson pitched a fine game for the Cards against Adolfo Luque, Al Grabowski, who got credit for the victory and Jim Lindsey, did well in relief roles, and Chick Hafe's home run in the fourth gave the Cards their first tie.

Hack Wilson clouted a pair of home runs on his first two times at bat against the Giants and sent the Cubs off to an easy triumph. The homers gave Wilson a total of 52 for the season and produced a 15 hits.

The other American league teams took their games more or less lightly, devoting most of their time to attempting to fatten their batting averages. The St. Louis Browns outlasted a seven run rally by the New York Yankees to win out 9 to 8, while the Detroit Tigers gained a 9 to 7 victory over the Boston Red Sox as each team cracked out 15 hits.

## Horses Win County Fair Races In Straight Heats Wednesday

LISBON, Sept. 18.—Races at the county fair grounds Wednesday afternoon were won in straight heats. The track was fast, the rain of Tuesday night doing no harm to the course.

Dr. G. P. Curry of Coshocton entered the judges stand and made bitter complaint when his horse Bob Worthing in the second heat of the 2:22 race was set back for running. The horse broke and started to run at the three-quarter pole, and continued this gait until almost under the wire when it again goes its feet.

Curry was informed that his horse gained on the whole field by his spur, and was not pacing. The horse was not in the money in any of the three heats of this race, and the protest was of no avail.

Ed Nose Bonny was withdrawn from this race after the second heat because of a lameness.

Peter Sunday in the third heat of the 2:20 trot could not get away at all, and Starter Harry L. Carpenter of Bellfontaine gave the word as the other entries went under the wire. The horse broke and started to run at the three-quarter pole, and continued this gait until almost under the wire when it again goes its feet.

## Saturday's Contest Marks First Grid Battle Between Salem, Canton McKinley Since 1917

### Stark County School In Four Victories Over Quaker Citizens

Saturday's contest between Salem and Canton McKinley High school football teams marks the fifth encounter between the two northeastern Ohio district athletic leaders in gridiron competition since the year 1909.

It is the first time football teams of Salem and Canton, designated as two of the outstanding scholastic athletic institutions in this section of Ohio, have clashed since the season of 1917. As yet the Quaker City's grid representatives have never defeated the Stark county school's grid aggregation.

The year 1905 is recorded as the first clash between the two, Canton winning by a 6-2 score. In 1907 Canton won again by a 21-0 score while in the third meeting McKinley was victorious 28-6. This latter triumph came in 1909 and the schools did not meet until 1917 when Canton annexed its fourth straight win over Salem by a 28-0 score.

1905 Backfield  
The Salem backfield which opposed Canton in 1905 was composed of Mead, Schiller, Cooke and Kyle. Schiller later was awarded all-Ohio honors at an end position with Western Reserve college at Cleveland.

The lineup in 1907 was: Willa-

man and Turner, ends; McConner and Price, tackles; Pickering and Augustine, guards; Tolerton, center. In the backfield were: Moff, captain and quarterback; Montgomery, full, and Rogers and Whinnery, halves.

Mounts, a member of the 1909 team, was the first Salem High grider to ever score a touchdown against Canton. He recovered a fumble on his own 40-yard line and dashed 60 yards for a touchdown when the Red and Black lined up as follows:

Hess and Corey, ends; Linn and Mercer tackles; Allen and Mounts guards and Tomlinson, center; Leonard was quarterback, Hise and Whinnery the halfbacks and Smith fullback.

Salem's 1917 team had a disastrous season, winning only two out of nine games. Canton's 28-0 victory being one of the worst defeats suffered by the home team during the year. Wilson and Reich were the ends, O'Connor and Kille the tackles, Fineran and Stirling guards, and Don Burdaw (now Justice of Peace D. J. Burdaw), center.

A lad known as "Runt" Ward who today passes the 200-mark on the most conservative of scales, was quarterback, with Twing Seeds, Wally Hutson, Litty and Hanny

### Rival Aggregations Have Not Met Since Season Of 13 Years Ago

composing the remainder of the backfield.

The game this Saturday will in all probability mark the opening of an annual conflict between this city's and Canton's grid representatives. Canton will play here next season.

## Webber Ineligible For Grid Opener

Wilbur Webber, star Salem High guard and one of Coach Floyd Stone's most dependable linemen for the past two seasons, is ineligible for the Red and Black's 1930 opener with Canton McKinley this Saturday.

In taking an examination on a subject in which he was conditioned at the end of last semester, Webber gained his scholastic credit in high school and, according to a former ruling, would have been eligible for football.

However, a new ruling, received by school officials yesterday states that grades as they stood at the end of the last semester are final and that no additional work and later passage in a subject affects the status of a student as far as athletics are concerned.

## THE HOME KITCHEN

By Jeannette Young Norton

### A Lobster Supper

Some like them hot, some like them cold—and from the housewife's standpoint, the lobster salad is the most convenient way of serving this delicacy. Fresh lobster takes at least a half hour of cooking in boiling water, and there must be plenty of it to keep the lobster completely covered. Or half an hour of broiling under a good flame.

For lobster as salad, or a la Newburgh, or in any of the other combinations, the canned meat is just as good, and, of course, far easier to prepare.

### Lobster Salad

2 cups diced lobster, canned or cooked  
1 green pepper  
1 pimiento  
1 cup diced celery  
1 cup mayonnaise  
4 hard boiled eggs  
1 head lettuce

Mix the lobster, diced vegetables, eggs and mayonnaise, and keep chilled until needed. Then mound on crisp lettuce leaves. If desired, whipped cream can be added to the mayonnaise just before serving.

### Lobster Newburgh

2 cups diced lobster  
1/4 cup butter  
1/2 cup cream  
2 egg yolks  
2 tablespoons sherry flavoring  
1/4 teaspoon salt  
1/4 teaspoon paprika

Melt butter in a saucepan or chafing dish, then add the lobster meat, cooked or canned, the seasoning, and cook two minutes. Add cream, and when it comes to a boil add egg yolks and sherry. Cook a moment longer, until thick, and serve on toast points.

Marge, who took a flying trip to Europe last summer has come back with a few culinary enthusiasms.

Brioche in Belgium—Bouillabaisse and Onion Soup in France—Risotto in Italy—why can't we have them here?

Of course, we have, and by diligence one can find places where these dishes are cooked as well as in their native air. Some of them are easy enough to prepare at home. But Bouillabaisse and Brioche are specialties that can be prepared only for a large number. It's nothing for a small family!

Bouillabaisse is a choice but miscellaneous fish soup. All kinds of delicate fish are used, especially shellfish. And they must be of the very best, because the special charm of this dish is the manner in which each flavor is carefully preserved. Several kinds of fish, including eels, are cooked together. Lobster, oysters, crawfish are included. Indeed, with the splendid and extensive

variety of fresh fish obtainable in this country, we could probably outdo the French in this national dish once we set our minds on it!

Brioche is quite an extensive cooking job. It is merely a small bun, requiring three different risings, which makes it almost an all day job. Too much for the average American housewife! Especially if she can find her way to one of the excellent French shops. But served with chocolate they are delicious—worth a good deal of trouble. And quite as good with afternoon tea.

Onion soup is the easiest of the lot, and since a former French Premier let it be known that it was his favorite breakfast dish, the piebald pail has been somewhat removed. Slices of onion are cut very thin, then fried in butter until light brown. Very slowly, over a low flame. Add clear bouillon, either chicken or beef. When ready to serve, place a slice of toast in a hot soup plate, pour the bouillon with onions over it, then sprinkle with one tablespoon of grated Parmesan cheese per person. All must be kept very hot—soup, toast, plates. This dish cooks quickly and is not quite so good when lukewarm.

### British Plan Air Route In Arctic

LONDON, Sept. 18.—Experiments over proposed air routes intended to link Europe and North America may be made within a few weeks, according to directors of the British arctic air route expedition who have already established a base on the east coast of Greenland.

Many weeks will be given over to ground work, even while actual flying goes on. Preliminary survey work will probably last throughout the winter.

Although little is known of flying conditions in the arctic regions, British leaders of the enterprise are optimistic about a future airway, which would bring Canada closer to the mother country and carry air mail from the United States and South America.

### Girl Makes Choice

TIFFIN, Sept. 18.—Lola Long, 18, is going to remain with Mr. and Mrs. Milton Reiff by her own choice permitted by Common Pleas Judge James H. Platt yesterday. She went with the Reiffs a year ago to work off a debt at the rate of \$4 a week, owed them by her father, who with her mother, have been trying to regain her custody.

STOCKBRIDGE, MASS.—Friends have disclosed that Mrs. Cyrus McCormick of Chicago has been on the stage incognito. For the fun of doing something worth while she produced "Lute Song," an adaptation of a Chinese play, under the name of Dorothy Willard and played the part of a princess. She brought some costumes from China and others were made in this country under her direction.

There is no knowledge which is not valuable.—Burke.

### Popular Vogue in Black and White Ensemble

Against the severe all-black of the ensemble dress and jacket, the white all-over bead trimming of the collar and tie and cuffs stands out in rich effect. Not only does it add to touch of femininity to the costume but it also carries out the popular vogue for black and white.

### Souvenir Hunters Take Sarcophagus

SPRINGFIELD, ILL., Sept. 18.—The white marble sarcophagus in which the body of Abraham Lincoln reposed from 1874 to 1876 has fallen prey to souvenir hunters.

Laid upon the lawn of the Lincoln memorial here when the work of rebuilding the first tomb of the emancipator was started recently, the sarcophagus has been dismantled and some parts of it carried away.

It was not intended that the sarcophagus should figure in the restored tomb, but it was to have been preserved for its historical associations.

### Boy Dies, Four Ill From Poison Water

WELLSVILLE, Sept. 18.—Donald, 3, son of Paul Culp, died here Wednesday while his mother and three other children are ill of food or water poisoning.

Physicians said the ailment might be due to the fact that the city is pumping water from the Ohio river into the main in order to cope with a serious shortage as an aftermath of the drought.

### KELLOGG TAKES COURT POSITION

Former Secretary of State Will Have Seat in World Court; Replaces Hughes

GENEVA, Sept. 18.—Frank B. Kellogg, secretary of state, Thursday was elected a member of the permanent court of international justice so-called world court to replace Charles Evans Hughes, who resigned to become chief justice of the United States supreme court.

The Kellogg election was jointly by the league assembly and council in secret balloting. Later in the present session Kellogg is expected to be elected to the full nine year term beginning Jan. 1, next.

Kellogg received 30 out of the 47 valid votes cast. The other candidates voted for were not announced.

### Widow Named

CLEVELAND, Sept. 18.—Mrs. Gwendolyn Holcomb Kundtz, widow of Joseph Kundtz, heir to millions and killed when his plane crashed near here a month ago yesterday, was appointed administratrix to her husband's estate which consists, the court heard, of \$2,500 in cash, securities and an automobile.

### Her washday story caused Aunt Sue to change soaps

"It's just too wonderful for words, I Aunt Sue. I soak everything in creamy Rinsosuds—and out they come bright and gleaming! So white, I don't even bother about boiling."

"This way saves the clothes. My hands are spared, too. And Rinsos is economical. Cup for cup, it gives twice as much suds as those lightweight, puffed-up soaps."

### Rich, safe suds

In tub or washing machine, Rinsos is all you need. No bar soaps, chips, powders, softeners—even in the hardest water. A little Rinsos gives a lot of rich, lasting suds.

### The Annual Laundry Devotion

Each year when Belle returns to her city apartment she has the annual discussion with her thrifty cousin. Cousin is an experienced housekeeper who has a beautiful laundry in the basement of her town house, and in it is the accumulated equipment of some years.

Piece by piece she has acquired all the best of the labor-savers for the laundry. And she regards Belle as a reckless, thriftless manager because she sends practically everything out to the laundry.

Like most perennial arguments, this has no yes or no answer. There is much to be said on both sides. Any lady who has discovered a laundry that doesn't lose more than five per cent of her belongings during the year and returns work promptly and in good condition, has her problem solved. Nothing so convenient as sending a large, dampish bundle out of the house, and receiving a few days later a beautifully crisp, immaculately white pile of linen in return. It's the most labor-saving laundry method thinkable and makes washing, dry-

ing and ironing in the home seem hopelessly archaic in this day and age. As superfluous to laundry in the home as to make one's own soap and candles—not to mention bread.

But, when laundry service is too far from perfect, then it may be more annoying to put up with losses slopping washing or ironing than to perform these operations effectively in the home. In any case, however some laundering has to be done at home. Silks, especially fine pieces, need loving care as well as soap and water. And there are on the market now some small washing-machines that can fit over the kitchenette sink so that the job can be done with thoroughness as well as care. Washing, drying and ironing equipment can be obtained to suit one's purse and space. But even if the space is available, the amount of weekly laundry is an important factor to consider. No point in acquiring large efficient machinery to take care of a modest number of pieces each week.

And cost is not the most important consideration. In deciding on

the installation of laundry equipment, the chief advantage is in the possibility of superior service—finer laundering, less wear, less loss. In comparing the total cost of laundering machinery, plus cost of operation plus the cost of somebody's labor to attend to the machine it may be disclosed that there is not much saving in the annual laundry bill. But each case has to be figured separately and there's no unequivocal answer to the problem yet.

## Making a Big Hit in Salem ...

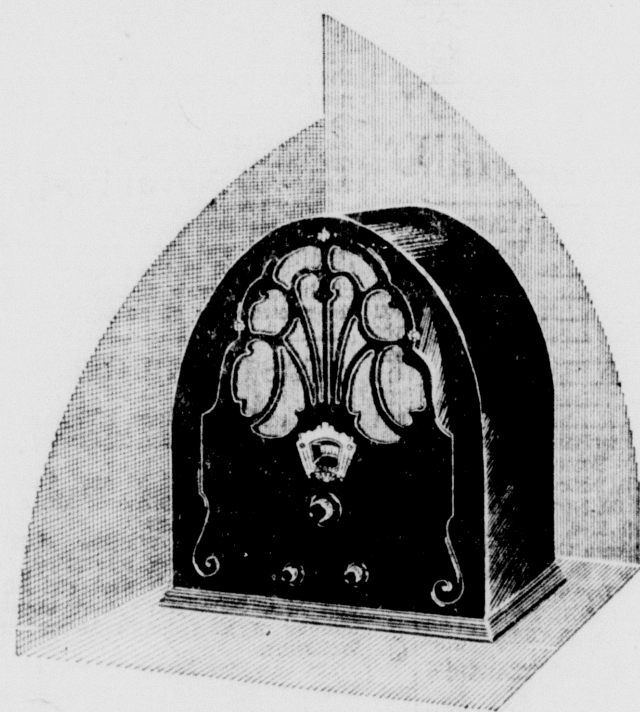

## BABY GRAND

Great popularity already has greeted the new Philco Baby Grand which recently made its bow to Salem. And there's a reason!

The Philco Baby Grand is a complete all-electric receiver. It can be moved from room to room; is finely sensitive; and it tunes accurately. In short, it gives genuine "big radio" performance!

If you haven't seen or heard the new Philco Baby Grand, see your nearest Philco dealer today. He will extend easy terms if you decide to buy.

7 tubes (3 screen grid) genuine Electro-Dynamic Speaker built-in. And Philco Balanced Unit quality throughout. The Baby Grand is enclosed in a genuine walnut cabinet, 16 inches wide and 17 1/2 inches high, in handsome Gothic design as shown. A big-performing set at an epoch-making price!

### Today's Pattern

This smart frock adapts the popular bolero in the styling of its bodice which crosses in front over a becoming, contrasting vestee. The sleeves, too, present the "last word" in fashion circles with their cleverly attached puffs made of the contrasting fabric. The skirt flare is joined in downward point and there are tiny back neck tucks to perfect the fit.

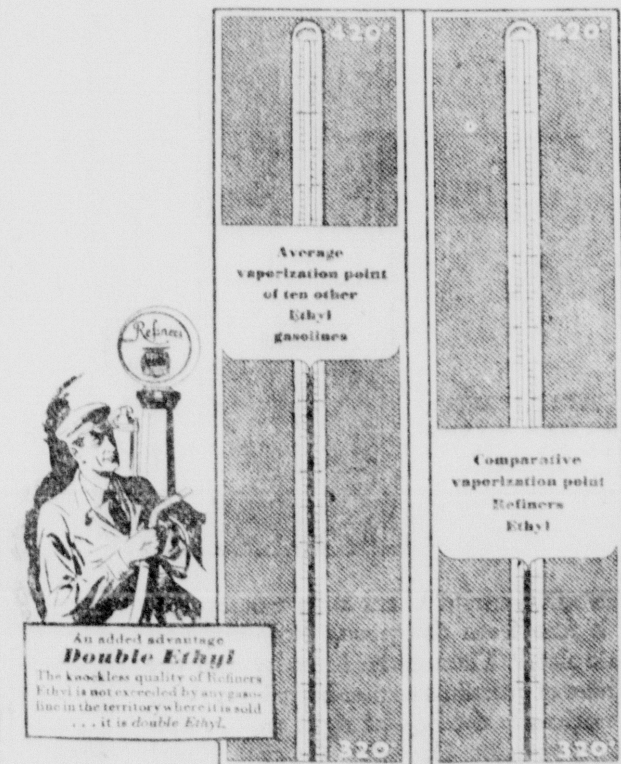

Pattern 2015 makes up beautifully in wool or silk—flat or canton crepe, marocain, sheer tweed, covert cloth or velvet. The trimming may be cut from silk crepe, batiste, organdy or satin. Smart color schemes are black and white, brown and beige, green and egg shell wine and flesh. May be obtained only in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 14 requires 2 1/2 yards of 44-inch, or 4 1/2 yards of 40-inch fabric.

### COUPON

This pattern will be delivered upon receipt of 15c, coin or stamps, carefully wrapped. Latest Fashion Book this and all orders to SALEM NEWS PATTERN DEPARTMENT, 243 WEST 17TH STREET, NEW YORK CITY.

## Why do we say "use Quick Vapor double Ethyl!"

THERE are two important reasons—

First: Because "Quick Vapor" gasoline means a more highly volatile gasoline, quicker starting, quicker pick-up, extra "punch" from the instant you step on the accelerator.

Second: Because to this new base we have added double the quantity of Ethyl itself.

Refiners Ethyl has the advantage of a super-Ethyl gasoline—absolutely unsurpassed for knockless performance—plus more energy, due to its unusual volatility. In tests, Refiners Ethyl not only vaporized quicker, but also was vaporized at temperatures 27 degrees lower than the average of ten other leading Ethyl gasolines.

In spite of its "double" advantage Refiners Ethyl costs you no more than regular Ethyl gasolines. Fill up with Refiners Ethyl today and see how much it adds to the pleasure and economy of driving.

## New Air Bases To Be Started Soon

WASHINGTON, Sept. 18.—Plans for the aeronautics branch of the commerce department to establish engineering test bases at New York, Detroit, Kansas City, Los Angeles, Oakland, Wichita, St. Louis and Cleveland were announced today by Assistant Secretary Clarence M. Young.

This would materially expedite engineering inspection and testing of civil aircraft as to air worthiness and eligibility for federal license, Young said.

NEW YORK — Charlie Lee of Long Branch, N. J., who, in view of friends, was the biggest Chinese laundryman in the world, is dead. A special coffin had to be built. Charlie was 6 feet 2 and weighed 275. Members of the Eng family at whose home he died in New York's Chinatown, said he abandoned chopsticks because he could eat faster with a fork. He had two pounds of meat at a meal and sometimes three bottles of beer.

NEW YORK — The "radio queen" is red-headed and sings blues. Miss Bernadine Hayes of WBBM, Chicago, is regarded as the most beautiful microphone artist and will be "Radio Queen" at New York's radio world's fair next week.

Heroism feels and never reasons, and therefore is always right.—Emerson.

Have you passed the noonday of Life?

Then make the down road happy by keeping your strength and health. An unfailing warning of a rundown condition is the diminishing of the red-blood-cells.

A DEFICIENCY of red-cells in the blood is usually followed by physical exhaustion, loss of appetite, nervousness and weight, underweight, nervousness and boils. When your red-blood-cells are only 80% you are NOT yourself—60% is very dangerous.

Common sense suggests that every possible step be taken to correct such a condition. Take S.S.S. before each meal. It will build up and enrich your blood, give you new life and vitality! Your appetite will pick up—you will feel like yourself again! Keep the down road bright by keeping your red-blood-cells fighting for you. Get the large size. At all drug stores.
